GO_CC: top 20 pathways per contrast
mitochondrial inner membrane
organelle inner membrane
mitochondrial matrix
mitochondrial envelope
respiratory chain complex
mitochondrial membrane
mitochondrial protein−containing complex
respiratory chain complex I
NADH dehydrogenase complex
mitochondrial ribosome
organellar ribosome
oxidoreductase complex
mitochondrial large ribosomal subunit
organellar large ribosomal subunit
organelle envelope lumen
large ribosomal subunit
ribosomal subunit
ribosome
supramolecular complex
endoplasmic reticulum membrane
endoplasmic reticulum subcompartment
supramolecular fiber
supramolecular polymer
organelle subcompartment
intracellular protein−containing complex
I band
contractile muscle fiber
myofibril
sarcomere
proteasome complex
